Award-winning antivirus for Mac

Doesn't slow your device

Hundreds of millions of users worldwide

30+ years of cybersecurity expertise

Your Mac is not immune to threats — but our free Mac antivirus protects you on 3 fronts

Malware isn't the only threat to your Mac. Malicious websites and vulnerable Wi-Fi networks can also jeopardize your safety and privacy. Avast Security for Mac provides more protection against all 3 threats, and our premium version also helps expose Wi-Fi intruders and helps stop ransomware.

Anti-malware security

Web and Email Shields

Wi-Fi security scan

Wi-Fi intruder alerts (premium)

Ransomware Shield (premium)

Anti-malware protection for your Mac

Your macOS might stop some malware variants, but it can't help you if you're already infected. Avast's free antivirus for Mac not only helps block viruses, spyware, Trojans, and other malware in real time, it also scans your entire Mac for already-hidden threats.

See all anti-malware features +

Browse and email in peace with more protection

Even trusted websites can get hacked, and cybercriminals can easily spoof emails from your friends or bank. Avast Security helps Mac users to identify unsafe websites, block unsafe downloads and risky email attachments, plus reduce web tracking via an optional extension.

See all online security features +

Find and fix Wi-Fi network vulnerabilities

Avast Security for Mac scans your network and connected devices for vulnerabilities to help you stop hackers from stealing your personal data.

Premium features

Need premium Mac antivirus protection? Say hello to Avast Premium Security

Avast Premium Security for Mac includes all the malware-crushing moves of its free little brother, along with premium defenses against Wi-Fi intruders and ransomware.

Catch Wi-Fi intruders in the act

Avast Premium Security instantly alerts you when someone joins your Wi-Fi network. This helps you keep hackers out and stop neighbors from bringing your network to a crawl with their unwelcome video streaming.

Help avoid ransomware attacks

Avast Premium Security helps protect your photos and files from ransomware attacks, making it harder for cybercriminals to encrypt, lock, or mess with your most personal memories.
